

PAAVAI ENGINEERING COLLEGE

Dear Parents, Students and Well Wishers.

Greetings from PAAVAI.

Welcome you all to our greeny, sprawling campus where you feel a 'Positive Energy' infused in you in the real sense. We successfully completed the academic year 2008-09 with full of activities, projects, events and so on. In Paavai, as you all know, we are very clear about the role and responsibilities of a sound educational system.

To our belief and practice, the 'educational system' and the 'teaching and learning process' should have the four basic principles – **learn to know; learn to be; learn to live together and learn to do.** **Learn to know** relates to the cognitive life skills and refers to both the acquisition of right knowledge as well as the use of such knowledge in the right way. **Learn to be** refers to the self management skills like self awareness, self esteem, self confidence and coping skills. **Learn to live together** refers mostly to interpersonal and social skills like communication skills, refusal skills, negotiation skills, assertiveness skills, interpersonal skills, co-operation, co-ordination and empathy skills. Last but not least **learn to do** refers to practical skills, closely associated with "bodily health and integrity".

Knowing fully well the above, our teachers are moulded in such a way to be very much aware of the said educational system which makes "**the special**" in Paavai. Our well trained teachers with their active teaching learning techniques exercised their fullest capabilities which paved us a way to secure 25th place among all the engineering colleges in the year 2007-08, we were in 10th place in the year 2008-09 and we now aim at No.1 place in the current academic year 2009-10.

Your continued support and guidance helped Paavai to give birth to two more institutions "Pavai College of Technology" and "Pavai Arts and Science College for Women" from the academic year 2009-10.

As we are very much aware that teaching and research are intrinsically bound together, we aim that the industries shall come closer to us and we hope this year shall be to Paavai, the best year of **Institute Industry Interaction** and thereby, we will enhance the capabilities of placing our students in the best possible way to the best possible extent. I am confidently reiterating that our staff team dedicated themselves and fully committed towards the constant and **continuing excellence** in imparting the value added educational system in Paavai. I hope that with all your co-operation, our team will achieve what we aim at in the nearest future.

Details elaborated in the forthcoming pages of this small book may brief the activities which we had in the academic year 2008 – 09 and I am so firm in assuring that we will spend each and every second of the moments for the betterment of our students and with a lot of expectation, I join you to welcome the bright and prosperous academic year 2009 – 10.....

PAAVAI CULTURE

We challenge the changes
We seek beyond the best
Work shall be taken not to be given
We produce value added professionals
We lead to Prosper Excel and Conquer

STUDENTS HAVE STRONG FAITH ON THE FOLLOWING PRINCIPLES OF PAAVAI

We, the students of Paavai Educational Institutions, are very much aware that we are prepared to cherish and uphold the Paavai Principles such as Refined Culture and Rich Values. We are taught a kind of education on the Paavai Campus which is based on the modern and humanistic thoughts which enable us to promote the peace of mankind in general.

The Paavai Campus, where we receive the creative energy to translate our lofty dreams into meaningful and constructive actions, inspires us into a realization that it is our responsibility to take care of the welfare and security of the brothers and sisters with whom we study here.

We whole - heartedly believe that we would recognise and respect the love, affection, care and concern of our parents and teachers, and also follow their well-meant guidance and disciplining instructions and come up in life with flying colours.

- This pledge is taken as an oath by the students on every occasion in Paavai

WE BELIEVE....

The young sage of India, Swamy Vivekananda, has established the greatness of Indian culture and the identity and the sovereignty of this Land of 'Vedha and Sathya' by addressing the participants from the core of his heart as "Brothers! and Sisters!!" in the world Religious Conference, held at Chicago, America.

In the same manner, Paavai strongly emphasises the friendship with fraternal affinity with the goal of attaining knowledge mingled with pure affection and without any expectation and servility.

In Paavai premises, a girl student will address her co-girl student as 'Sister' and her co-boy student as 'Brother' and similarly a boy student will address his co-boy student as 'Brother' and his co-girl student as 'Sister'. This practice is already in vogue, cent percent on the Paavai Campus.
