Dear Sundaramurthy,

Greetings from Team AIM!

Congratulations! We are extremely excited to share with you that you have been selected as a Mentor of Change for Atal Tinkering Labs. We received a large number of applications, and your application really stood-out. We are really excited to get you started with your mentoring journey and work together to mentor a new India. To welcome you as MoC, we have special message from Mr. R Ramanan (Mission Director, Atal Innovation Mission) - <https://youtu.be/3WQlhWjshHM>.

In Mentors of Change, we look for leaders who can volunteer on a regular basis in one or more such labs and enable students to experience, learn and practice future skills such as design and computational thinking. These labs are non-prescriptive by nature, and mentors are expected to be enablers rather than instructors. Possible areas of contribution could be, but not limited to: a) Technical Knowhow: building prototypes, b) Innovation and Design: inculcating solution-oriented approach, c) Inspirational: leadership and self-motivation, and d) Business and Entrepreneurship: encouraging ideas and team building.

### **Proposed Roles and Responsibilities for MoC**

- In-person mentoring session at least once a week for 1 - 2 hours on an ongoing basis for at least 1 year (typically 40 academic weeks).
- Such sessions will be focused on guiding and nurturing students in Atal Tinkering Labs for problem formulation, finding solutions to common problems faced in day to day life, and finally tinkering on ideas converting them into scalable solutions.
- Provide support and review specific innovation projects. Give constructive feedback to school management/ individual students to allow further improvement at regular intervals.
- Introduce students to relevant extended community / networks.
- Reasonable participation in social media forums organized by Atal Tinkering Labs.
- Support the school in reaching out to communities in neighboring areas.

- Help the schools to arrange for sessions in the lab in after school hours or in camp mode or during vacations or on weekends (based on mutual availability of selected mentors and students).

## Appreciation Letter

It is with great pleasure that we appreciate **Dr.M.Makesh**, Professor, Department of Mechanical Engineering, Paavai Engineering College, Namakkal District for his guest lecture on 'Machine Design' delivered to our students of Mechanical Engineering.

The simplified approach to design concepts has evoked good response from the students.

Thank you and expect your kind cooperation in future too.

Your remarkable performance and commitment have helped us in getting the successes of this project entitled "Power generation by using Gym cycle" carried out by Prof.T.Nandagopal, Assistant Professor, Department of Electrical and Electronics Engineering of Paavai Engineering College.

Your professional approach, friendly nature and team playing skills have led the entire team to get immensely enthusiastic and quite motivated to do the project well and perfectly done.

Thank You,

Managing Director

### To whom it may concern:

I confirm that S. Vadivel has provided 3 reviewer reports for manuscripts submitted to Royal Society of Chemistry journals, including 2 for the journal: *Journal of Materials Chemistry C* and 1 for the journal: *Physical Chemistry Chemical Physics*.

These journals are high impact, international, and peer-reviewed with global circulation.

- *Journal of Materials Chemistry C* - Materials for optical and electronic devices.
- *Physical Chemistry Chemical Physics* - High quality research in physical chemistry, chemical physics and biophysical chemistry.

Our journal editors select reviewers based on their research expertise and experience. The Royal Society of Chemistry greatly appreciates S. Vadivel's expert services in reviewing papers for publication in our journals, and we look forward to their future assistance.

Yours sincerely

Sir,

This is to appreciate your motivating lecture delivered on the title of “Entrepreneurship Development” in our campus for our engineering students. The presentation clearly explained the various initiatives taken by the government and many corporate companies to encourage entrepreneurship among engineering students. The interesting examples of successful entrepreneurs would certainly motivate many students with innovative ideas to take Entrepreneurship as an option.

We thank you for your time and effort and also expect to have more of such lectures in our campus.

## CERTIFICATE OF APPRECIATION

I hereby affirm, to the best of my knowledge and belief, based on inspections, observations, testing of the project and upon reports submitted by others, that this Project "Novel rotor side SEPIC converter based MPPT for grid connected PMSG wind energy conversion system" is substantially complete and operable. The "Novel rotor side SEPIC converter based MPPT for grid connected PMSG wind energy conversion system" project was completed by Prof.S.Ramachandran, Assistant Professor, Department of Electrical and Electronics Engineering of Paavai Engineering College in accordance with the department's issued guidelines.

We expect to grow in the forthcoming years if you deliver the same quality of project and research work.

Thanking you,

Yours truly,

Sir,

On behalf of Department of Mechanical Engineering, we are very much thankful to you for extending your fullest cooperation and sparing your valuable time for a guest lecture on topic "Fluid Mechanics and its Applications" for the students of Mechanical Engineering.

The lecture was highly informative and useful for our students. We solicit such cooperation in future.

Sir,

The Gnanamani College of Technology would like to thank you for your talk on “Finite Element Method”. Your seminar on the subject matter was very interesting as the examples made the advanced topic, easy to understand. The interactive session with students showed that the topic had an impact on the students.

We expect your association with our college in future too for such academic interchange of activities.

**LETTER OF APPRECIATION**

We greatly appreciate your support rendered for improving our assembly line. It has been very useful for our daily functioning. In this regard we would like to appreciate the efforts of Mr.M.Makesh, Associate Professor, Mechanical Engineering, Paavai engineering college, who helped us in Design and Material Selection for the mechanism. The work also taught us how to utilize optimally.

We extend our gratitude to your esteemed institution, head of the department and Prof.M.Makesh for extending their support. We expect your cooperation in future also in technical developments.

Thanking You

Yours sincerely
