15. Any other suggestions *

1. Syllabus of Process organic synthesis in Semester 4 is very general and is not possible by staff to cover all the portions in the syllabus. The syllabus is difficult to students to read and to prepare for the exams. To understand the concepts, students should have read organic chemistry previous Semester but not.
2. So, the Process organic synthesis paper should be either in 5th or 6th Semester, while organic chemistry paper is in previous Semester.
3. There are many repeating topics in syllabus of Fertilizer technology in Semester 8. Portions of Unit-III is too small and there are only two topics from that only two Part-B questions can be asked.
4. There were physical chemistry lab, organic chemistry paper, lab, in Semesters 3 & 4 in Regulation 2016 but they have been removed in Regulation 2019.
5. Fertilizer Technology paper was in Semester 8 in Regulation 2016. It is an industrial job oriented paper but have been removed in Regulation 2019.
6. Physical chemistry is an very important subject for chemical engineering students. So there may be two physical chemistry papers, like in NIT Trichy.
